

DCTDenoise::IterDctDenoise

main

save\_picture\_pgm

```
graph LR; A[DCTDenoise::IterDctDenoise] --> C[save_picture_pgm]; B[main] --> C;
```

The diagram illustrates a control flow where two functions, `DCTDenoise::IterDctDenoise` and `main`, both call the function `save_picture_pgm`. The boxes for `DCTDenoise::IterDctDenoise` and `main` are white with black borders, while the box for `save_picture_pgm` is gray with a black border. Blue arrows indicate the direction of the calls.
